57015-0	5/8" Shake-proof Washer [Seven (7) Units Required].....	\$0.30	0.08

*NOTE:	UniFrame drives built prior to 2016 will use P/N #9577-0 bolt, #56567-0 nut and #57015-0 washer to secure the rollers to the drive's back-up roller nest. Drives constructed after December 2015 use P/N #11815-0 roller turn roller bolt only. The newer roller nest incorporates a taped segment bar, so the nut and washer are no longer required.
